SHSHNK DEEP

Fullstack Developer | Building Scalable Web Applications

@ shashank.deep01@gmail.com   ● New Delhi   🌐 shashankdeep.com   in shshnkdeep

github.com/consolenine

EXPERIENCE

Python Engineer
Freelance at UpWork

📅 Jan 2024 – Ongoing   ● Remote

- Worked independently on custom SaaS platforms in Django and ReactJS
- Worked on web scraping projects leveraging robust features of Python
- Built solutions to improve speed and volume of scraping algorithms by more than 300%

PHP Developer
Contract

📅 Dec 2022 – Dec 2023   ● Remote

- Updated code base of older projects for better security and scalability
- Developed internal solutions for company workflows and document management

PROJECTS

CuratorFinder

🌐 curatorfinder.com

- Lead generation platform for music artists to generate playlist curator contacts from Spotify by crawling millions of playlists
- Developed the entire application while paying attention to security aspects, code quality and maintainability

Teamofgenius

🌐 teamofgenius.com

- SaaS platform for social media post generation and scheduling to multiple platforms at once

Unidemyglobal

🌐 unidemyglobal.com

- Online platform for exam preparation and mentoring for international students
- Developed several features including online assessment modules

Podoma

🌐 podoma.mk

- Product catalogue for an international brand
- Developed frontend alongwith CMS in Laravel

VISION

I simply enjoy building with tech. Making impact while helping others is what I envision myself doing five years from now.

STRENGTHS

Hard-working   Accountable   Problem Solver   Tech Enthusiast   Team Worker

Software Design   Software Development   Debugging   UX   Creative Thinking   Marketing
